## Dr. Lute Maleki

Senior Research Scientist,  
JPL Quantum Sciences  
and Technology Group

**Thursday**  
**September 19**  
von Kármán Auditorium

**Friday**  
**September 20**  
The Vosloh Forum at  
Pasadena City College  
1570 East Colorado Blvd

Lectures begin at 7 pm  
Admission is free.  
Seating is limited.

Science helps us

understand and make  
sense of the universe.

In its own way, art has  
the same goal. The link

between the two may  
not be obvious, yet

they have a long and  
intertwined history. This

talk explores the close—  
and often surprising—

relationship between  
these two seemingly

opposite pursuits.
